**Personal  
Responsibility  
Planets Reunite!**

Jupiter–Saturn Strategies

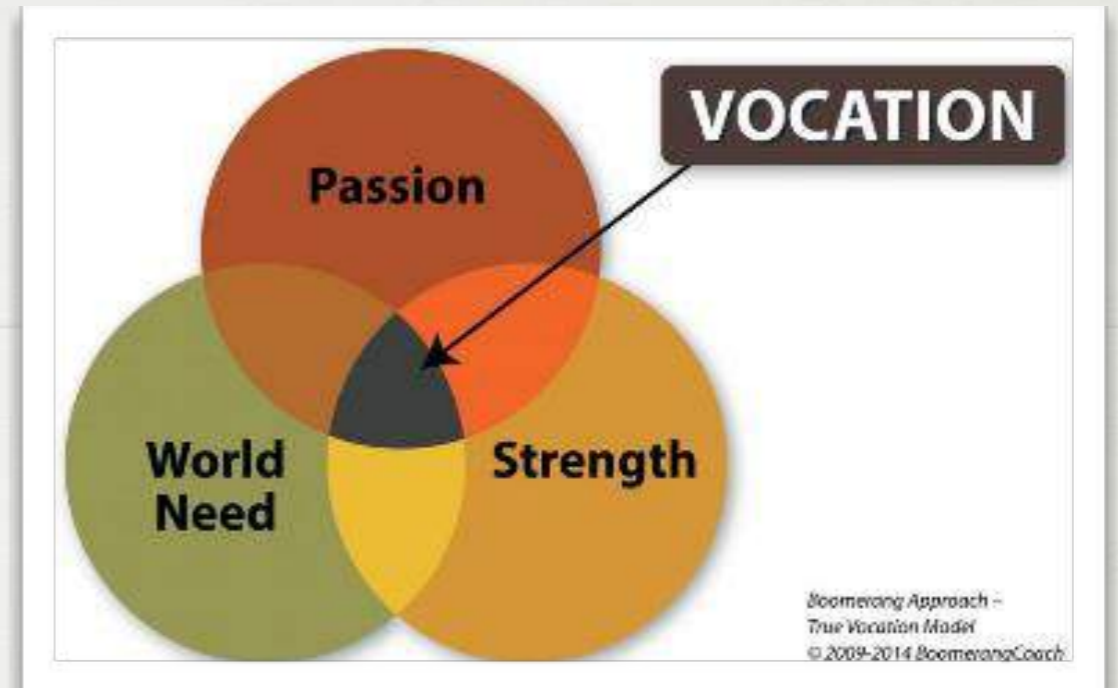

21 December 2020

0° Aquarius

# Jupiter & Saturn

- The personal (Aquarius = social) responsibility planets (by transit: our 'to do' planning)
- 1 and 2.5 year plans
- Very different energies: growing vs. pruning; optimism, faith and growth vs. pessimism, doubt and restraint
- Shared themes: Morality, integrity, wisdom and purpose
- End result: Experience and education – and then sharing these
- Einstein: 'The only source of knowledge is experience'

- **Together:** Wise judgement; worldly; discipline leads to growth; growing within a structure or fixed framework; seeing the overall and long-term pictures; making big plans that last; careful, sustained growth; hard-won beliefs/philosophies that come through experience
- **Negative:** Pushing our luck; lacking ethics; not respecting limits/over-committing; fearing expansion/learning/the future; playing the ego-driven guru

Most signs learn this:

GOD GRANT ME THE  
*Serenity*  
TO ACCEPT THE THINGS  
I CANNOT CHANGE:  
*Courage*  
TO CHANGE THE  
THINGS I CAN:  
AND *Wisdom*  
TO KNOW THE DIFFERENCE.

Aquarius decides to flip it:

**“I am no longer accepting  
the things I can not change.  
I am changing the things  
I can not accept.”**

**— DR. ANGELA DAVIS**

# Aquarius (0°)

- Ideas-based; an original, innovative, independent perspective
- Ideologies for society; fellowship and humanity; space and science; freedom and the future; social responsibility; the Truth; *liberté, égalité, fraternité*; friends and the commune: all are special, ordinary and equal
- With a strong Uranus: a catalyst; works to topple rigid hierarchies; tears up the rulebook, stereotypes and traditions; defines own rules; walks the road less travelled; anti-establishment
- People-pleaser until self-acceptance; must create own model of leadership/ authority
- 0°: Innocent, enthusiastic approach/start

- Fixed Air: rigidity; certainty in 'rightness'; the 'only way'; an uncompromising stance; resistance to personal change; unwilling to learn from others; cannot relate intimately
- Shadow side linked to Leo: egocentric, superior, autocratic ('some are more equal than others'); issues of intolerance, prejudice, favouritism; fights for the group but despises 'commonness'

# Jupiter–Saturn Conjunction (every 20 years)

- New movements in society; change in social structures and national identities; beliefs in society; manifestation of possibilities
- Aquarius: Fairness; clear perspectives; tolerance; to freely express views; idealism; humanitarianism; technology; veganism; respect for the rights of fellow creatures; equal rights; right to protest
- Patriarchy replaced by progressive views
- But perhaps the shadow side is ‘One World Order’ (especially with Pluto moving into Aquarius), less individual control; decisions made by committee – individual is outvoted; ‘humanity more important than humans’

- Ten years of Jupiter (1920, 1940, 1960, 1980, 2000, 2020), followed by ten years of Saturn (1930, 1950, 1970, 1990, 2010, 2030)

# US Elections

- US Presidents tend to be either Jupiter or Saturn (except the current Uranian one!)
- December's Jupiter–Saturn conjunction is at the degree of the Sun at each US Presidential Inauguration
- The next swearing-in suggests the four-year term won't be completed as expected and/or it'll coincide with great social rebellion and reconstruction
